/z/	zip
/sh/	shop
/ch/	chip
/th/	thin
<b>/th/</b>	then
/ng/	ring
/zh/ <sup>1</sup>	vision

Vowel Phonemes	Sample Words
/a/	ant
/e/	egg
/i/	in
/o/	on
/u/	up
/ai/	rain
/ee/	feet
/ie/	pie
/oa/	boat
/oo/	boot
/oo/	look
/ou/	ouch
/oi/	coin
/ar/	farm
/or/	for
/er/	her
/air/	fair
/ear/	dear
/ure/ <sup>2</sup>	sure
/er /	<u>corner</u> (the 'schwa' – an unstressed vowel sound which is close to /u/)

<sup>1</sup> The grapheme 'zh' does not occur in English words. Because this sound does not occur in simple CVC words, it can be omitted in Phase Three.

<sup>2</sup> This phoneme does not occur in all accents. It occurs only if people pronounce words such as *sure* and *poor* with an /ooer/ vowel sound, not if they pronounce them as *shaw* and *paw*. It, too, can be omitted in Phase 3, and perhaps even permanently.
